## PROFESSIONAL EXPERIENCE

**Full Stack Software Engineer |** SafeApp Technologies, Hybrid*Apr 2026 – Present*

- Shipped SafeApp to Google Play and the App Store with a 2-engineer team: real-time chat, groups, voice/video calls and reels. I built the Next.js admin panel and the Firebase/Firestore backend.
- Built SafeApp into a dynamic social platform with a sleek, user-friendly interface, offering seamless real-time messaging, private conversations, short-form video sharing, interactive content feeds, and creator monetization through content uploads.
- Building a real-time Next.js command portal synced to a Flutter app for a confidential military-operations client.

**Co-Founder |** NovexaHub, Lahore*Jan 2025 – Present*

- Built PostFlow: Upload once, publish to Instagram, Facebook Pages and TikTok (sandbox) through OAuth and each platform's API, with pre-publish checks and live status. LinkedIn and YouTube are built and awaiting platform approval.
- Launched novexahub.live in Next.js and TypeScript with SEO metadata, sitemap, JSON-LD and Firestore security rules.

**Full Stack Developer (Project-Based) |** Rathisoft Innovation, Lahore*Sep 2025 – Jan 2026*

- Delivered a complete responsive client website on schedule.

**Software Engineering Intern | Pangea** Global Enterprises (PGE), Lahore*Jun 2025 – Aug 2025*

- Built and maintained React and Python web features in a team workflow.

**Full Stack Web Developer (Freelance) | Fiverr**, Remote*2023 – 2025*

- Delivered 4–5 client sites for international small businesses, paid in USD.
